ORDER

KVASU has a very unique and systematic method for approval of proposals of research works for Masters and Doctorate programmes by critical evaluation and modifications of submitted proposals in various statutory and scientific bodies, viz., Project Coordination Groups, Project Coordination Committee, Faculty Research Committee and Academic Council.

To avoid delay in the conduct of proceedings of these committees, in consonance with the decision of the 35th Academic Council meeting, the following orders are issued:

1. The proposals of research work for Masters and Doctoral programmes shall be approved by various scientific and statutory bodies envisaged for that purpose, within the next one semester of submission of the manuscript. i.e., within second semester for Masters and third semester for Doctorate Synopses.
2. The synopses after corrections suggested in the minutes of PC groups and PCCs may be received in PDF format by the Professor (FRC), through concerned PC group chairman and later merged together to avoid changes in the format that would have happened otherwise.
